

2023 e-Learning

English Edition for Researchers

- 23 modules
- 16 speakers
- Exercises
- 50 hours of multimedia content
- Self-assessment questionnaires
- Training Certificate

FOCUS

on the invisible
microscopy school

Project by

FONDAZIONE
GOLINELLI
l'intelligenza
di esserci

G-LAB

In collaboration with

Scuola di
Microscopia

The online course **Focus on the Invisible – Microscopy School** is a Fondazione Golinelli and G-LAB project, with the patronage of the Department of Medical and Surgical Sciences (DIMEC), University of Bologna.

The course provides tools to understand how microscopes work, from the study of the fundamental laws governing optics, to the concepts underlying the most advanced technologies. Each module contains a video presentation and a self-assessment questionnaire. In some cases, experimental tutorials and practical exercises will be included. The course is held by scientific speakers and experts coming from the most important Universities, Research Institutes and technology companies. **Focus on the Invisible – Microscopy School** was produced thanks to the technological partners Nikon Europe BV, EVIDENT Europe GmbH and EVIDENT Global Academy.

How does it work?

Basic level: the application form is open from November 23rd, 2022 until December 22nd, 2023.

Advanced level: the application form is open from April 24th, 2023 until December 22nd, 2023.

The cost for each individual program is 200€, for both courses is 300€.

Who it's for

The course is aimed at researchers, laboratory technicians, health personnel, facility staff members, university and PhD students.
